GREAT SAVING IN DRESSMAKING. Mrs. Curtis' First Premium Models.

MINISTER A LADY CAN, IN A PEW minutes, shape any article of wearing apparel, including the GORED DRESS, BASQUINE, SACK, POSTILLION, ZOUAVE, GIEDLE, APRON, PANTALOONS, VEST, &c., to fit perfectly without trying on.

The system is Mathematically perfect, hence it removes all anxiety regarding the fit of a Dress. There will be no ALTERING—no TARING UP or LETTING OUT, which not only injures the material but destroys the proportions and often ruins the Dress. It is not only exact, but so clear and simple that any person can learn in an hour to cut any garment.

ruins the Dress. It is not only exact, but so clear and simple that any person can learn in an hour to cut any garment.

How many ladies of limited means could dress better could they SAVE THE PRICE OF THE MAKING OF A DILESS, which they can do by the use of these MODELS; and how much use less anxiety would be saved by the wealthy and most fastidious were they certain that the dress being made would fit to please them. It would if to the least thought in the the dress being made would fit to please them. It would if the the little Jackets, Pantaloons, Dresses, Aprons, etc., while the children are happy at school or at play. Ladies, just try to realise yourselves being able to cut, after a few hours' attention to this System, every style of GORED DRESS to fit perfectly without the aid of a pattern or of trying on, and every style of Basquine Cloak, Circular Cloak and all other Cloaks, and indeed every article of weering apparel to fit every size, from the babe to the largest person, and the cutting to be a delight instead of a trouble. Realise this, and then see if you can get along without these Models.

The Applications for instruction, addressed to MRS WATSON, and left at Mrs. Hein's Millinery establishment, Government street, will refere prompt attention.

The Models supplied gratis to those taking instruction, and Fashionable Patterns sold separately if desired. Ladies waited on. m4 lm

PALTRY. - Englishmen generally pride themselves upon their love of justice and fair play, but it appears there is a handful of men in Nanaimo calling themselves Englishmen who are an exception to the rule. These as one of the greatest blessings that could be conferred upon the town. Lacking ability, independence and energy, however, the paper under its early management, of course began to lose weight, and consequently to lose ground. As the only means of sustaining the journal therefore, it was leased for twelve months to Mr. Joseph M. Clure, a most industrious, inoffensive and painstaking gentle-man who soon threw vitality into the waning publication, and gave it a voice and an in-dependent footing - among the inhabitants, This, however, did not suit the tamanawas men and their time-serving adherents, who wished the paper to utter nothing, however honest and truthful, that was distasteful to their feelings. The conclave was accordingly summoned together; and after making futile efforts to dispossess the lessee, bethought themselves of having recourse to bankruptcy. A grand idea! another meeting was held, a resolution passed to wind up the company, and a gentleman appointed liquidator, Terrific! Nothing could withstand this! However, the Liquidator was refused admit-However, the Liquidator was refused admit-tance, the lessee naturally maintaining his right to retain possession till the expiration of his term. Baulked again, recourse was had to the Victoria authorities, and a for-midable locking bailiff was despatched from this city, who, together with a local officer, have laid siege to the premises, but still, at last accounts, without success. Mr. MrClure last accounts, without success. Mr. M'Olure was secure within his fortress, and with 'caps' in one band, and 'long primers' in the other, kept the fierce looking assailants at a other, kept the lefter bound assaurate at distance. How long the siege is to last remains to be seen, though it strikes us that it would be better that these nice gentlemen should be allowed to have their property back and that Mr. McClure, with so large a portion of the inhabitants supporting his cause should obtain fresh plant and start another paper in which he could show these parties up in their true colors. We understand that the their true colors. We understand that the twelve mouths' lease to the present lessee is repudiated on account of its having been rerbal, and not written, (except on the minutes). If such be the fact, it adds a second feather to the cap of these night-spirited gentlemen, and is only another of those instances so frequently occurring out here in which our countrymen strive their utmost to being Englishmen into contempt and ridicule

bring Englishmen into contempt and ridicule with foreigners. THE FENIANS-The wires have been silent for the last two days, owing to an interruption in the line this side of Portland, and consequently nothing more has reached us since Friday night from the Canadian borders. The public are greatly excited over the recent news and are anxiously looking forward to the receipt of further intelligence from the East. In the meantime our own position and the probabilities of a raid on these shores is engaging public attention, resulting as might be expected in the circulation of all kinds of unauthenticated rumors. The authorities deeming prevention better than cure are wisely on the qui vive. H. M. S. Accident-Two men, named respectively Martin Maichor, a Hungarian, and Martin Bglliel, a Swiss, left Yale on Tuesday last with a horse and wagon loaded with sundry articles and bound for the Big Bend mines. The following day about 12 o'clock they arrived about 15½ miles out on the wagon road. An Indian woman, who was engaged in packing, had been resting on the side of the road, and getting up to resume her jour-ney frightened the horse so that he com-menced backing. The men were walking behind the cart, and attempted to stop it by menced oncearing.

behind the cart, and attempted to stop it by pressing on the wheels; they were unable, however, to prevent it going over the precipice. The horse and wagon fell about 12 feet down where they were caught on a tree, but all the provisions, box of carpenter's tools and other things fell into the Fraser our hundred feet below. With the exception of a gun, blankets, and some few trifling articles, the goods were entirely lost. All attempts to get the horse out failed, as he plunged so violently as to kill himself against the rocks. The unfortunate men, who are both poor, feel the loss very much. They are determined however to go on to the mines if they can get a little provisions for the purpose of enabling them to proceed—Tribune.

INTO THE TIGER'S DEN .- Officer Barnstead met with a singular adventure on Saturday night last, and was a visitor at a place such as policemem seldom gain access in. It seems that he was informed of the existance of a "hogging" game of faro. and went to the premises described, but the bird had flown. Here he was met by one of those who live from the crumbs which fall from the gamblers' tables, who mistaking him for a country goose ready to be plucked, volunteered to take him to a place where the sportive "tiger" was cutting up his antics, and together they visited a house, but could not gain admittance as the doorkeeper had suspicion that Barnstead was quite so green as he pretended. But another capper or solicitor for a fival establishment was willing to take the chances, and conducted him to a saloon on Commercial street, into a room where the game of faro was being dealt to a large and interested crowd. Behind a table around which ted crowd. Behind a table around which were clustered a dozen or so betters, sat a dealer, wrapped from head to foot in a domino, with a veil over his head, and over this veil a black mask to conceal his features. Barnstead didn't wish to be mean. He had seen a sight vouchsafed to few policemen, and why should he not pay for it? Dress circle seats to see Forrest were \$1 50, and any policemen could see Forrest. So Barnstead pulled out three half dollars and bet them one at a time, sometimes winning a "chip" and then losing until his money was gone, when he suddenly jumped over the table, and with one grand dash tone the mask from the dealer's face, showed his star, and in less time than "Jack Robinson" could and in less time than "Jack Robinson" could and in less time than Jack Robinson count conveniently be uttered, the fare game was stopped and the dealer in custody. He gave his name as Charles Johnson. In the Po-lice Court this morning he waived a prelim-inary examination on the charge of gambling, men who are an exception to the rule. FROM NANAIMO-The steamer Emily Harris, Capt. Frain, arrived yesterday morning at four o'clock from Nanaimo, bringing a few passengers amongst whom were Dr. Sylvester and Mr. Peck. She had previously visited New Westminster with a cargo of coal. In entering the harbor Capt. Frain was astonished to find a man-of-war boat mounting a brass cannon alongside his vesse. and politely offered to give the boat a tow, and politely offered to give the boata tow, but was still more surprised when isformed of the object of the visit. Neither the skipper nor any of his passengers however were "spotted" as Fenians and the steamer was suffered to proceed. We are not in receipt of the Nanaimo Gazette although it was published as usual on Saturday morning but the story goes that the papers after leaving the office were appropriated (it may prove a dear appropriation) by an outsider and did not therefore reach their destination

FROM SOUTH AMERICA-H.M.S. Sutlej, 51 guns, bearing the flag of Admiralthe Hon. Joseph Denman, arrived in Esquimalt on Saturday evening, 54 days from Coquimbo. Admiral Denman, who has been invalid during the passage, will retain the command of the fleet until his promotion and the recall of the ship, both of which are shortly expected, her time of service naving expired. Sir Lambton Lorraine, formerly the Admiral's Flag Lieutenant, has been promoted to Acting Master of H.M.S. Mutim. Lieut. Salmon is now Flag Lieutenant. It is much shorter than the present roundabout expensive way. Goods at present have to be dragged in boats through the rapids up the Columbia to Wilson's Landing (about 25 miles), from whence they are packed by men to where the trail strikes Gold River (three miles), where they are put in small boats and boated to the mouths of the creeks, when they are again mouths of the creeks, when they are again packed by men to the stores on French creek (two miles). Prices in the stores here remain about as at my last writing, with a downward tendency; but a great deal of buying has been done from miners who have concluded to leave, and of course prices vary greatly. A WORD TO MOTHERS.

THE BEAUTY OF CHILDREN.

There is no object in the world more pleasant to look upon than a beautiful child. Evon the crusticst of old bachelors must acknowledge this in his heart, however disapointment may have soured his temper. Unfortunately, however, the freshness and natural bloom of childhood are often marred by disfiguring disorders. Sometimes we see youthful faces blemished with fiery circles, and looking as if disease had been at work upon them with a pair of compasses dipped in red ochre. Of course every mother recog-nises this description of Ringworm, for which the still more disgusting cutaneous diffection known as SCALD HEAD is next to kin. Probably nine-tenths of us have has a touch of these unpleasant eruptive com-

plaints at one time or other, and most of us know that they are not only disfiguring, but excessively annoying and painful. We are aware too, that most of the nostrums recomended for them merly spread and aggravate inflammation, and that it frequently leads to confirmed disease of the skin. Under these circumstances, it is to be presumed. these circumstances, it is to be presumed that all parents who are not conversant with the wonderful properties of Holloway's.

OINTMENT will be glad to learn, on good authority, that it is a quick and thorough remedy for RINGWORM and SCALD HEAD, as well as for other external diseases. The testimony which goes to establish the fact is incontrovertible, and every mother who wishes to see the faces of her darlings unclouded by erruptions, and their heads uncrusted with excrescent matter, is entitled to

Professor Helloway has obtained such a eputation throughout the world for his ex-ernal and internal remedies, that his name must, of course, be familiar to all our readers; but after all, there is no harm in giving point and force to general commendation by specifying certain diseases in which one knows that they have worked wonders. The effect of the Cintment in cases of RING-ways and Scalar Harmischer a specimen. work and Scald Han is but a specimen of its marvellous operation in all skin diseases; yet, we dare say, there are many who have used it for boils, bruises, blotches, &c., &c., who have scarcely thought of it with referance to these two scourges of childhood. If any mather, should truit on our recommendations of the state of the second state of the second s any mother should try it on our recommen-dation, we have little doubt she will give it a permanent place in her nursery closet for some time to come. Much may be done to prevent the ordinary cutaneous diseases of children by proper diet, strict cleanliness, and regular exercise in the open air; but after the disorder has actually developed itself, there is no curative so reliable as HOLLOWAY'S OINTMENT .- Albany Daily State

GABRIEL ON THE LOSS AND RESTORATION OF THE TEETH.—The above is issued by Messrs. Gabriel, the eminent London dentits, and as it is written by men who have a high standing in their profession, the work is well worthy the perusal of all who value the preservation of their teeth and wish to guard against the many and tormenting evils to which those useful my others are subject. Many valuable hints are given throughout the book as to the various means of preserving the teeth and gums in a healthy condition, and of arresting in many cases permanently the progress of decay which may have already set in. The little work is evidently written by men of long experience in their profession, and who are thorough masters of their subject, and as such may be honestly recommended. Extract from the Monas Herald, January 2nd, 1864. As may be seen by our advertising columns, Messrs. Gabriel supply Teeth on their patented system, irrespective of distance or mate.

THE TEETH.—A very comprehensive little treatise on the teeth has just been forwarded to us by the well-known dentists Messrs. GABRIEL. Adopting the lan uage of the preface we may say that in this somewhat pretensious age, at a time when publications of this kind are numerous, a short, unasswing treatise emanating from a firm of long stanting containing nothing but that which is immediately to the purpose, will not, we believe, prove tracceptable. The little work contains many valuable hints which will be found eminently useful for the allevation of the miscries of toothache, until the more substantial aid of the professed dentist can be procured. Extract from "Cumberland Pacquet," 2nd January, 1864.—As may be seen by our advertising columns, Messrs. Gabriel supply artificial Teeth and Gums on their patented system, ittespective of distance or slimate.

They are equally efficacious in the cure of tumouts, burns, scalds, glandular swellings, ulcerous wands, rheumatism, contracted and stiffjoints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only, but complete and permanent.

If there is one thing more than another to which here Pills are so tamous, it is their purifyit pprozertles, especially their power of elemshing the broad rom all impurities, and removing dangerous, and enewing aspended recretions. Universally adoptions as the one grand remo by for female complaints the Pills never fail, never weaken the system, and alway, bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether they seerete to much or too little water; or whether heep be afficied with stone or gravel, or with adee, and pains settled in the toins over the region or the kideeys, these l'ills should be taken according to the printed directions, and the dimension should be the printed directions, and the dimension of the printed directions, and the dimension of the printed directions and the district of the printed directions and the printed directions and the printed directions and the printed directions are districted as a second direction of the printed directions and the printed direction of the printed direct Stomach out of Order.

No medicine will so effectually improve the ton-of the stoward as these l'ills; they remove all acud-ty, ccasioned either by intemperance or improper-ilet. They reach the liver, and reduce it to a nealthy action; they are wonderfully efficacious in asses ol spasm—in fact they never fail in curing al-lisorders of the liver and atomach. Bronchitis, Diptheria, Coughs and Colds

Bronchitis, Dipthoria, Coughs and Colds No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The direct symptoms of disordered action may always be removed by Holloway's renowned Pills. They quickly remedy any temporary stagnation of the blood, relieve the overgorged veins, moderate the hurried breathing, and enable the windpipe and tungs to perform their functions with case and regularity. olloway's Ointment and Pilla.—The y medical chest that is furnished with these rful remedies needs nothing more. Indiges general dibility, liver complaint, eruptions, wounds, ulcers, tumours, &c., are infall-ured by their use. They purify the blood and g e tone and vigour to the whole system. The Contment, when well rubbed into the parts affected, enters the flesh just as salt enters meat, and if the Pills be taken as an auxiliary, one cure is speedy, thorough, and permanent. These medicaments are composed of rare balsams, without the admixture of a grain of mercury or any injurious substance. They are peculiarly mild and gentle in their action, and are as safe as they are effections.

Halloway's Ointment and Pills—These potent remedies constitute a materia medica in themselves, for there is no i-ternal or external disorder cont. Ollable by met. Jine for which the one or the other of them is not a positive remedy—eruptions, tumors, scrofula, scurvy, cancer, asthma, rheumatism, gout, and dropay entirely subside and disappear under the action of these joint medicines; and in cases of indigestion, sick headache, bile, liver complaints, debility, and other disorders originating in the internal organs, the Pills produce the most astouishing results implied are her ways; if one preparation can throw out all the impurities of the blood, disease is conquered and art is triumphant, because it adopted the simplicity of Nature.

Holloway's Pills and Ointment.—Influence and consuments of the throat and chest, so prevalent in this country, nothing so speedily relieves or so certainly cures as these inestimable remedies. These disorders are too often neglected at the commencement; or are injudiciously treated, resulting in either case, in disastrous consequences. Whateverthe condition of the patient, Holloway's medicines will restore, if recovery be possible; they will retard the alarming symptoms till the blood is purified and Nature consummates the cure, gradually restoring strength and vital nervous power. By persevering in the use of Holloway's preparations, tone is conferred on the stomach and frame generally; the fluids are regenerated, morbific matter is expelled, and a happy revolution occurs throughout the system.

HOLLOWAY'S OINTMENT AND PILLS—Acute Rheumatism. In all severe pains in the joints and muscles, after due fomentation with hot water, the soothing action of this Ointment is most re markable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore the frecirculation, and expel the disease. In these counplaints, indeed, Holloway's Ointment and Pills are an infallible specific. The Ointment should be rubbed as near the part in pain as the patient can bear; it is absorbed and directly conveyed to the diseased textures, when, acting on nerves vessels, and guiders, it will arrest disease and again establish healthy action.
